TOPIC OF DISCUSSION

ReGen Valley/Tech Hub designation in Manchester, and the economic development impacts/opportunities for the city and the state. There is already tremendous momentum with infrastructure and commercial real estate developments in the City of Manchester, and with the introduction of a new, biomanufacturing industry coming to the city, there will be additional, explosive growth to support this new industry. This discussion will bring clarity to the size and scope of the industry, and the possible sectors which will require the most growth to continue to flourish in a supporting role for an emerging industry. Topics will include the biomanufacturing industry, life sciences, housing, infrastructure growth, cost of utilities in NH, employment, ReGen Valley/Tech Hub designation/grant, commercial real estate developments.
